

Coyote UV™

Versatile!

Yet simple to install, maintain and upgrade

With more than 50 years of combined industry experience you can count on UV Superstore for expert advice on systems, lamps and parts.

- **Start with one, two or three lamps.** Then add lamps as capacity needs increase — for a total of four.
- **316L stainless steel vessel**
Electropolished and passivated to meet the highest industry standards. Built to last.
- **LED lamp status indicators**
- **MPT fitting standard.** Sanitary or flange fittings optional.
- **UV intensity monitoring**
with 4-20mA output (optional).
- **High heat shutoff** (optional).
- **Made in USA!** American quality build with fast turnaround times.
